ArjunPankhaniya

PROFESSIONAL SUMMARY

Flutter Developer with internship and project experience in cross-platform mobile applications. Skilled in Dart, Flutter, Firebase, and API integrations. Delivered 2+ applications, including a client-based e-Commerce app that increased the transaction success rate by 20% through the RazorPay integration. Built responsive UIs on 10+ device types, improving user retention by 25%. Attempting to apply technical expertise to build scalable, user-friendly mobile solutions in a collaborative team environment.

PROJECTS

Client Project

Shivay's Creation Flutter

📅 10/2022 - Continue

- Developed a clothing e-commerce app in Flutter with product catalog, shopping cart, and Razorpay integration, enabling 100+ monthly transactions.
- Implemented a responsive and adaptive user interface in 10+ screen sizes, Boosted engagement and retention by 25% while reducing bounce rate.
- Streamlined checkout flow with Razorpay API, reducing payment failures by 20%.
- Technologies used: Dart, Flutter, Razorpay API, Firebase.
- GitHub: [Shivay's Creation Repository](#)

Personal Project

E-commerce App

📅 09/2022 - 10/2022

- Designed a product catalog with advanced filtering and search, reducing average product discovery time by 40%.
- Built a secure shopping cart system that handles 50+ items with <2s response time between devices.
- Maintained consistent UI across 5+ device types using scalable pixel density techniques.
- Technologies applied: Java, Android SDK, SQLite DB.
- GitHub: [E-commerce App Repository](#)

INTERESTS

- Exploring cross-platform frameworks (Flutter, React Native) and contributing to open-source discussions
- Designing and prototyping mobile UIs, tested on 5+ device form factors
- Maintaining fitness through regular running and outdoor sports (10 KM/week average)

SKILLS

- Languages:** Dart, Java (3+ years academic + project experience)
- Frameworks/Libraries:** Flutter (2+ apps delivered), Android SDK, Firebase
- State Management:** Provider (implemented in 2+ production-level projects)
- Tools:** Git, GitHub (20+ commits across projects), Android Studio, VS Code, Postman
- Database:** Firebase (real-time sync for 50+ users), SQLite
- Concepts:** Cross-Platform Development, UI/UX Principles, REST API (2+ API integrations), Object-Oriented Programming (OOP)
- Additional Skills:** MySQL, Python, PHP

CERTIFICATIONS

Flutter Development

Snapfix Ltd.

📅 08/2023

- Completed a 6-week comprehensive program covering Flutter fundamentals, cross-platform UI/UX, API integration, and Firebase, resulting in 2+ working prototype apps.

Mobile App Development

Brainybeam Private Ltd.

📅 10/2022

- Completed an intensive training on Java and Android, applying OOP principles to build 3+ mini-projects and reduce code redundancy by 30% through modular design.

EDUCATION

Bachelor of Engineering in IT

Sanjaybhai Rajguru College, Rajkot

📅 06/2024 - Expected: 06/2027

- Relevant Courses: Data Structures, OS, Networks, Database Management

Diploma in IT

Government Polytechnic, Rajkot

📅 06/2021 - 04/2024

- CGPA: 7.58
- Focused on Data Structures, Networking, Database Management, and Android Development.
